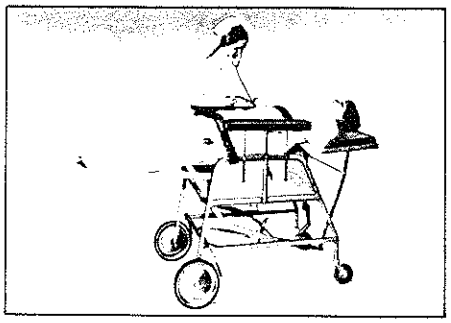
Inval-Aid Chair

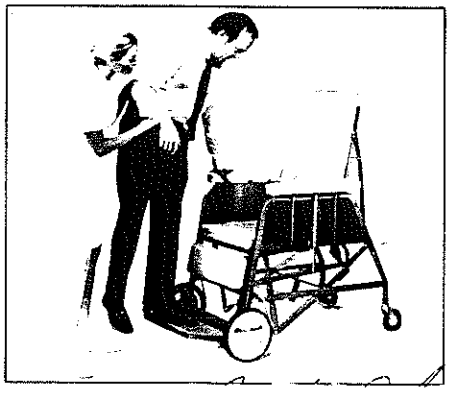
Model 300000 Inval-Aid®

Inval-Aid®

The Hausted Model 300000 Inval-Aid® Chair adjusts patient postures quickly and comfortably from sitting to supine or vice versa. Ideal for admittance or discharge the Inval-Aid® responds equally well in emergency situations when called to act as an examining table. Many hospitals have found the chair to be particularly adaptable to cardiac applications.



Positions are obtained in seconds with a minimum of attending personnel effort or patient discomfort. The Inval-Aid's® remarkable balance properties permit patients to stand on footboard sections without tipping the unit.



1. **Tubular Steel Frame**
   Stainless steel all welded tubular steel or Silver Lustre frame.
2. **Anti-Stain, Non-Absorbant Covering**
   Greige or Olive vinyl stain resistant, non-absorbant cover is upholstered over 2" foam padded seat, back, armrests, calf section and footboard.
3. **Single Crank Wheelchair/Stretcher Conversion**
   Single easily accessible crank converts the chair from full upright sitting to an infinite number of semi-prone and full prone stretcher positions. Foot brake and restraint straps are standard.
4. **Adjustable Armrests/Side Rails**
   Armrest height in chair position and side rail height in stretcher position are fully adjustable.
5. **Non-Tippable Construction**
   Footboard is specially designed to withstand the infirm patient's standing weight when entering or exiting the chair.

Inval-Aid® Chair Specifications (Chair Position)
